Is an active member of the Computer Aided Academy (CAI Academy). He is speaker in national and international congress and principal investigator of several research projects. His practice is located in Arzachena exclusively focused on Implant Dentistry , Oral Surgery and Periodontology.

JANUARY 26, 2018
FROM 9 AM TO 6 PM

NOVOTEL AL BARSHA
Sheikh Zayed road,
Al Barsha 1
Dubai, UAE

HOW
to manage
atrophic cases
with vertical
and horizontal
GBR

PRESENTATION OF THE TRAINING COURSE

This training course focusses on the teaching and learning technique. All participants will learn how to manage vertical and horizontal defects with GBR procedures using collagen and EPTFE membranes. The course will take advantage of several step by step videos, showing how to manage flaps, bone, grafts and membranes. Every technical step will be explained in details and particular attention will be paid to soft tissue management and combined guided surgery techniques.

In the afternoon session every participant will perform all the surgical steps on models guided by Prof Meloni and members of his team.

AIMS

To learn how to manage severe atrophic cases in the aesthetic and non aesthetic area with vertical and horizontal GBR procedures, using intra-oral harvesting sites.
